Date: June 6th, 2023 | Venue: Qubiz, Steenweg Deinze 154, 9810 Nazareth | Time: 12.00 - 17.00 / 21.00

Timing	Session	
12.00 - 13.00	**Sandwich Lunch in the Networking Area**	
13.00 - 13.20	**Introducing element61 and the Qlik Competence Center**	
	Stijn Vermeulen, Managing Director - element61	
13.20 - 14.00	**Showcasing the latest trends and innovations in Qlik**	
	Guy Meintjes, Pre-Sales Architect - Qlik	
14.00 - 14.15	**Coffee Break**	
	Main Room	**Break Out Room**
14.15- 14.50	**Accelerating Business Insights with a Qlik-powered Modern Data Platform**	**FIT (Financial Insights Template)**
	Are you struggling with large datasets? Are you in need of real-time reporting? In this session, you'll discover how a Qlik-powered Modern Data Platform can unlock new insights in real-time and handle big data loads. We'll explore key features of Qlik Cloud Data Integration like real-time CDC streaming to cloud data platforms and a no-code interface for transformations via auto-generated push-down SQL. We'll also show you how the platform integrates with other cloud service providers such as Azure to streamline your data analytics workflow and unlock even more insights.	Our FIT is a comprehensive suite of financial reporting and analysis tools designed to provide businesses with insights into their financial data. With an intuitive dashboard interface and highly customizable reporting options, businesses can easily monitor financial performance, track key metrics, and uncover hidden opportunities for growth. The FIT is the ultimate solution for businesses looking to make informed financial decisions and take their financial analysis to the next level.
	Reinout Lesage, Analytics Architect - element61	Sander Cornette, Analytics Architect - element61
14.55-15.30	**Migrating to Qlik Cloud**	**Showcasing Qlik Cloud Automated Reporting Services**
	Migrating your on-premise environment can be a game-changer for your organization, either coming from QlikView or Sense. Qlik Cloud offers advanced new features, scalability and eleminates maintenance cost, still it keeps your environment secure. In this session we will discuss what an end-to-end migration process looks like, what the benefits are and give you a clear overview of the costs associated with it.	Qlik Cloud offers various features such as automation, chart subscriptions and alerting, which can help businesses simplify their routine tasks. These features enable users to receive regular updates on specific data points and notify them when critical events occur. Moreover, these intuitive features can be customized according to the business's requirements to ensure that relevant information is delivered at the right time. Whether your organization is already using SaaS, planning to migrate, or just starting as a beginner, this session is for all of you. Join us to enhance your SaaS skills and leverage the benefits of Qlik Sense's powerful capabilities.
	Seth Verfaillie, Analytics Architect - element61	Aaron Roofthoofd & Seppe Van Heurck, Analytics Architects - element61

15.30 - 15.50	**Coffee Break**

15.50-16.25	**Exploring the Latest and Greatest in Qlik Sense: 5 Features You Need to Know**	**Qlik Lifecycle Development**
	Are you ready to take your Qlik Sense skills to the next level? Join us for an in-depth look at 5 new and exciting features to help you get more value from your data. Whether you're a seasoned Qlik Sense user or just getting started, you won't want to miss this session. We'll show you a mix of data modeling to new visualization options, giving you a well-rounded understanding of what Qlik Sense can do. Stay ahead of the curve and gain a competitive edge in your data analysis!	Are you curious about how to manage the entire lifecycle of your Qlik applications efficiently and effectively? In this session, we'll explore the key concepts and best practices for managing the entire lifecycle of your Qlik applications - from development to production. You'll learn how to streamline the development process, implement effective version control, and optimize performance to ensure that your Qlik applications are always up-to-date and running smoothly.
	Thibault Verduyn, Analytics Architect - element61	Thomas Peeters, Analytics Architect - element61

16.30 - 17.00	**Customer Case Dejond NV**
	Dejond is a wholesaler of non-ferrous metals and fastening systems as well as a producer and exporter of Tubtara® blind rivet nuts. Joost Romanus will share their QlikView to Qlik Cloud migration story and how the new Cloud-based environment is pushing productivity forward.
	Joost Romanus, IT & Quality Manager - Dejond

17.00 - 18.00	**Networking Reception**
